HIGHLAND BLOWOUT!

National Western Stock Show – Denver, CO

*Registered Highland Seedstock, Semen & Embryos Sell!*

**T**he National Western Stock Show has a rich history in Denver dating back to 1906. It started as a livestock show in the historic yards and now has evolved into a 16-day event featuring rodeos, horse shows, Colorado's largest Western trade show and the most prominent livestock show in the country. The National Western Center's (NWC) 250-acre campus, which will replace the aging facilities, will be built in phases over the next decade. It will be an international center of excellence in agricultural innovation, education, research, technology and imagination as well as entertainment and competition, serving the needs and interests of farmers, ranchers, tourists, researchers, students and educators around the world.

As plans unfold and construction begins, we are reminded of what a truly remarkable venue this is for our 30th Annual National Show & Sale. This is a dynamic stage to publicize a superior auction line up. It is a remarkable opportunity to take home cattle that are exclusively chosen by top breeders. Robust pedigrees from east to west coast and beyond are represented. These lots epitomize proven performance, production and style. In addition, you will see 2018 National Show Champions enter the auction ring for your buying pleasure. An exciting combination of unique bloodlines are represented with live cattle and semen/embryos that have never before been offered.

Young breeders, the AHCAj Futurity is now in its sixth year. Any AHCA junior who purchases a breeding heifer at this year's National Sale will have the opportunity to be rewarded up to \$1000 next year. The heifer needs to be exhibited by the junior at the 2019 National Show in Denver and meet other guidelines. Contact AHCA or check out the details at [www.highlandcattleusa.org](http://www.highlandcattleusa.org) on the juniors tab.

For further information on any of these fine lots, please contact the sale consigners or National Sale Committee. We are delighted to continue to have Sheridan Auction Company lead the event. They have a stellar reputation for excellence and commitment to the cattle business. We now own Jasper jointly with Silva's Highlands who sells under their Natural Homestead Beef label. Jasper's dam is out of the prominent Kiyiwana herd. Forceful was a brindle bull with a 60 lb. BW and 1500 lb. mature weight. Thorbardin Ranch considered him to be one of their premier beef bulls producing a large number of high choice and prime carcasses. He was used in their Highland and commercial herds for both calving ease and carcass quality. The registered Cape St. Mary fold of WA dates back to the McBarrons in the early 1950s and then the Oles in 1979. The torch has now been passed to the Pridmores of ID. Details of these "three generations" can be found in the fall 2017 issue of *The Bagpipe*.

Dually registered in the US and Canada, Lapland originated from performance oriented Glen Osprey Farm. They imported his sire and dam directly from the UK in the mid 1970s. This bull, like many GOF cattle, was larger framed with great carcass qualities. He shared good feet and legs and a delightful temperament with his herd mates. A beef bull, bred and raised by a beef producer, Lapland is one of their last with semen available. This red bull's pedigree is stacked 100% Scottish and traces back to renowned folds including Achnacloich, Leys, Scone Palace, Strathallan and Douneside.
