All livestock are subject to examination by a National Western Stock Show (NWSS) veterinarian or the State Veterinarian's Office upon arrival. Any animal showing evidence of infectious, contagious or communicable diseases will be immediately withdrawn from the show and held in quarantine at owner's risk and expense until properly treated, recovered and properly released to return to owner's premises. Any animals with visible active lesions of ringworm with resulting loss of hair or multiple warts will NOT be permitted to exhibit.
